

FURNITURE.

THOMPSON BROS.
626 KANSAS AVE.
617-619 QUINCY ST.
NEW ARRIVALS

Of furniture are of almost daily occurrence. What we haven't one day is very apt to arrive the next. Newness, variety, freshness and good taste characterize our stock; people realize this fact, hence when they want proper styles, the absolutely "correct thing" in furniture they patronize our store. When they want low priced furniture or medium priced or expensive furniture, they come to our store, because those who are posted know that we carry by far the largest stock of furniture in the state of Kansas, and therefore have both the variety of goods and the right sort of prices on them.

A PARLOR SUIT

At \$30 is not very much money for one. There are five pieces upholstered in silk coverings, one rocker, one arm chair, two parlor chairs and one divan. For \$40 we can sell a six piece brocade suit, that you might pay elsewhere \$60 for, and then think you were buying cheap. We have very pretty parlor suits for \$75, \$85, \$100 and \$125.

PARLOR DIVANS

Or small sofas we shall give choice of for just \$19 each this week only. They are beautifully upholstered in pretty colored silks and are reduced from \$12, \$14 and \$15, to one uniform price, \$10. The backs are of fancy carved oak or covered in silks. Very likely you would hunt many a day to find such a chance again.

BABY CARRIAGES

We confess to the fact, with becoming modesty, that we sold considerably more carriages this year than all our competitors combined, simply because we not only had a large number of them to select from but we had the right patterns and the low prices that are so attractive and for cash entitled us to. In accordance with our invariable rule we steered clear of the manufacturers of trashy carriages, giving reputable manufacturers our orders and receiving trustworthy carriages for our customers. Our stock has been sold down as low, however, that the few remaining on hand will be slaughtered to close out the whole lot. Don't miss this chance to save dollars.

THE PRUDENT BUYER

Will find a larger assortment of bed room suits on our floors than he can see in any store in this state. He will also find better goods and lower prices on them too. The prices are so adjusted that a little money goes a long way in buying furniture. When you can buy for \$14 a three piece bedroom set with a long dressing mirror to it, you can easily understand you are buying cheaply, buying a bargain, but while this is true of the \$14 suit, what do you think of a three piece bedroom suit for \$12? About \$1 apart is the range of prices on these suits. We have a hundred different patterns in stock at \$12, \$14, \$15, \$16, \$18 and \$20 per suit, and a room full from \$30 and up into the hundreds of dollars per suit.

IRON BEDS

At \$5, \$7, \$8 and up to \$25 ought on sanitary grounds, to commend themselves to the attention of careful housekeepers who especially desire pure wholesome beds for their families. Some of the iron beds can be folded up, which makes them a convenient article for occasional use, for easy handling or convenience in storing away in closet. They are in colors, ebony, blue and white.

THE NEW SEETTES

For the lawn or porch at \$5.00 and \$6.50, together with the arm chair and rocker at \$2.50 each, all of a kind, are well calculated to give a cozy appearance to a veranda, and are quite the proper thing. If you think the older styles of vermillion lined hickory chairs are more to your liking, the price is no great barrier to your possessing them.

WILLOW ROCKERS

For Fall use are cool, refined-looking, stylish and so very comfortable to use during the heated season. They are durable, too, the wonder is that people do not recognize the numerous good qualities of these chairs and rockers. If you will pay a little more and buy a higher grade, such as mostly come out of our stock, you will find them lasting a score of years in spite of their apparent delicacy of construction. The people of tropical countries know their comfortable worth.

THOMPSON BROS.

LAID BARE.

The Plot to Lynch the Six Negroes,

Is Exposed In All Its Details Today.

THOSE IMPLICATED

Are Known and Will Be Placed in Jail.

MEMPHIS, Tenn., Sept. 10.—The whole plot of the lynching of six alleged negro incendiaries near Millington, Tenn., on the night of August 31, has been laid bare, and before many hours elapse, every man implicated in the conspiracy will be in jail. Robert McGarver, son of J. A. McGarver, sheriff of Shelby county, is the man who exposed the conspirators. He was invited before the grand jury and told the whole story. Young McGarver at first refused to give testimony, but when given the alternative of going to jail for contempt of court, or revealing the plot, he chose the latter.

In his testimony before the grand jury McGarver said he was invited to participate in the lynching of the negroes by H. N. Smith, one of the men now in the county jail under indictment for murder in the first degree for complicity in the lynching. Smith gave McGarver the names of the men who would compose the mob, and told him the negroes would be arrested by Detective W. S. Richardson, placed in a wagon and driven to Big Creek Swamp, where the mob would be in waiting.

When the invitation to assist in the assassination was made to young McGarver it was represented that his father knew of it, and that Judge Cooper of the criminal court was not in the dark. These representations were untrue, and were made by Smith with the intention, if possible, of mixing Sheriff McGarver in the affair through his son, so that his hands would be tied if an investigation should be instituted by the authorities. Young McGarver declined to join the mob, but the lynching came off in due time.

McGarver, the day after the lynching, disclosed the details of the plot to Joseph Thers and Hoffman, then the grand jury obtained its first information about the conspiracy and the importance of McGarver's testimony. Cox, who denied all knowledge of the affair in his testimony before the grand jury, was indicted for perjury. Criminal Court Judge Cooper, after hearing of McGarver's confession, ordered him placed under \$10,000 bond to insure his presence at the trial of the lynchers.

REAR END COLLISION.

Bad Railroad Wreck in the Boonville Tunnel—Two Killed, Three Injured.

NORTH ADAMS, Mass., Sept. 10.—The most horrible disaster known in this vicinity took place on the Fitchburg road last evening in the Boonville tunnel, a short distance east of the Central shaft. The accident was caused by a rear end collision between east bound freight trains, and as near as can be ascertained, happened about 10:30 p. m. A freight train had stopped to repair an engine which had broken down, and at about the same time the west bound express train passed through the tunnel, filling it with smoke. A second east bound freight train was allowed to enter the tunnel, contrary to the rules of the road, and the engineer being unable, on account of the dense smoke left by the passenger train, to distinguish the lights from the train from the lights on the walls of the tunnel, went into it with a crash.

A fearful disaster was the result, both trains were badly wrecked. The tunnel was blocked, and two men killed outright and three seriously injured.

The east portal operator, who was in charge of the signal lights at the time, is confined in the police station on the charge of criminal carelessness.

W. Hodgkins, west portal operator, has also been placed under arrest. He claims he received the "ok" from the east end operator, and consequently changed his signal. The authorities will make a thorough investigation.

FIVE HUNDRED DEAD.

Death List in Pine County Will Probably Exceed That Number.

HINCKLEY, Minn., Sept. 10.—Five bodies were found last night in a cellar on a hill just north of the Kettle river, and were buried where found. It is believed here that the death list will exceed 500, as something like 100 are still unaccounted for, according to Coroner Cowan's official statement.

Didn't Know It Was Loaded.

CALDWELL, Kan., Sept. 10.—John Eaves shot and mortally wounded John Ward, both colored, in this city at 4 o'clock yesterday. The two boys were in a room over the First National bank and Eaves pointed a revolver at Ward and snapped it twice. Ward told him to desist, as he could see the loads in the revolver, and turned to leave the room. Eaves again pulled the trigger and the gun went off, striking Ward in the back just below the left scapula, passing over the heart. The boys were about 15 years old, and Eaves is now under arrest.

Emporia Hotels Raided.

EMPORIA, Kan., Sept. 10.—Three of Emporia's principal hotels were raided by a sheriff's posse, under authority of a warrant charging them with violation of the Murray liquor law, and in two of them, the Park place and the Sixth Avenue hotel, intoxicating liquors were found. The proprietors gave bond for their appearance at the October term of court.

Prescott & Co. will remove to No. 118 West Eighth this month.

MORE FOREST FIRES.

Alarm Occasioned in the Region Around Duluth by a New Outbreak.

DULUTH, Minn., Sept. 10.—Forest fires were renewed again yesterday in this region by a heavy southwest gale, which steadily increased in force. The bright sun was shut out and the horizon again took on the sickly yellow coat of the fatal Saturday a week ago. There was great excitement here and everyone rushed to the telegraph and train dispatchers' offices.

The sensation was intensified by the breaking out of the forest fires in the city limits. Fire crept around in the undergrowth at Oneota and caused some apprehension, for this is in the vicinity of the Mesaba ore district. The alarm came in from a St. Paul and Duluth passenger train because of fires on all sides of them.

At Kerkick, the inhabitants put in the afternoon fighting the fire, but thought in the evening the danger was over.

Harnum, too, had a narrow escape all the afternoon.

At Kimberly, on the Northern Pacific, only a large gang of railway laborers saved the town.

A NEW DIPHTHERIA CURE.

Blood Serum Method of Dr. Behring Causes Wonderful Results.

BERLIN, Sept. 10.—The diphtheria cure of Dr. Behring of Berlin, a disciple of Professor Koch, has been exploited at the Budapest medical congress and endorsed by many of the delegates present. Dr. Behring's cure is called a blood serum. By successive and increased doses, diphtheria virus was injected into animals and they gradually acquired immunity against the malady. The blood of such animals, injected into other animals, had the effect of conferring immunity upon the latter or healing them if suffering from diphtheria. Of this blood Dr. Behring extracted the serum and has injected it into human beings with wonderful results.

Professor Heubner of Berlin, and Professor Roux of Paris, endorsed the cure at the congress. Professor Roux said he had applied it at the Children's hospital, where, up to last year, 60 per cent of the cases of diphtheria ended fatally. This year he had inoculated over 400 children with the serum and the mortality fell from 15 per cent to 5 per cent. After a few injections the malady changed almost instantly to fever and then soon disappeared.

PHARMACEUTICAL BOYCOTT.

Will Not Patronize Manufacturers Who Furnish Physicians With Supplies.

ASHEVILLE, N. C., Sept. 10.—The American Pharmaceutical association voted to boycott manufacturers who furnish physicians with their manufactured products for use in dispensing prescriptions. It is claimed by the druggists that year by year the doctors are getting more and more into the habit of filling their own prescriptions and dispensing drugs from their offices, greatly to the detriment of the prescription business of the drug stores. The resolution authorizing the boycott was the work of Professor Whitney of Boston, and was adopted without dissent.

Hatch Renominated.

HANNIBAL, Mo., Sept. 10.—William Henry Hatch, representative in congress from this, the First Missouri district, and author of the Hatch anti-trust bill, will doubtless be renominated for congress by 300 or 400 majority. The above is shown by returns from the Democratic congressional primary elections just given out. Although these figures may be slightly changed when the official returns are received, Congressman Hatch's nomination seems certain.

Ten Persons Killed.

BRUSSELS, Sept. 10.—Ten persons were killed and twenty persons injured by the wreck of the Paris and Cologne express yesterday. The accident happened at Apilly, and was caused by a collision of the express train with a freight train which was being shunted.

Working Hours Increased.

SEDALIA, Mo., Sept. 10.—The Missouri, Kansas and Texas posted a notice in their Sedalia shops that in future the working hours would be increased from forty-eight to fifty-four hours per week.

HARVEST EXCURSIONS.

Low Rates to the South, North-east, and Southwest, via

ROCK ISLAND ROUTE.

On September 11th, 25th and October 9th, we will sell Harvest Excursion tickets to all points in Texas, Indian and Oklahoma territories, Tennessee, Mississippi, Louisiana, Arkansas, North and South Carolina, Georgia and Florida, at the low rate of one fare for the round trip, plus two dollars. Tickets will be good for return, with stop over privileges.

For further information, reservations etc., call on or address

O. GARVEY,

City Ticket and Passenger Agent.

St. Joe Fair and Races.

One fare, \$2.35, for the round trip. Tickets on sale September 9 to 15; good returning until September 17. Two trains each way daily, via Rock Island Route.

St. Joe Fair and Races.

One fare, \$2.35, for the round trip. Tickets on sale September 9 to 15; good returning until September 17. Two trains each way daily, via Rock Island Route.

Mr. Harry E. Overholt, late teller of the Kansas National bank, has taken charge of the Rock Island City Ticket office during the absence of Mr. H. O. Garvey, and will be pleased to see his friends at 601 Kansas ave.

Silver Leaf vinegar remains in the front. It is the best table and pickling vinegar. Ask your grocer for it and take no other. It is the cheapest.

TIENG'S FEATHER.

The Chinese Admiral Loses His Peacock Plume.

He Is Deprived of It For Cowardice.

CHINESE WAR NEWS.

Almost Impossible to Get Reliable Reports.

SHANGHAI, Sept. 10.—It is reported that Admiral Tieng, commander of the Pei Yang squadron, has been degraded for cowardice and incapacity and that he has been deprived of the peacock feather and is ordered to leave the fleet and take a shore command. The native papers say that Li Hung Chang is working to procure the mediation of England and Russia in the war with Japan. The emperor and dowager empress are, it is said, furious at the suggestion and refuse to listen to it.

VICTORIA, B. C., Sept. 10.—The Northern Pacific liner Sikh, from Yokohama, brings interesting advice of the war in the Orient. The arrival of the Sikh is commander of the Japanese warship Naniwa Kan, when asked why he fired upon the Kow Shung, seeing she was flying the British flag, is now given for the first time, and is certainly pertinent: "Because she was sailing under false colors, was carrying Chinese troops and had been sold to the Chinese government and fully paid for."

Notwithstanding the explanation the same paper which gives it publicly announces that the sum of \$750,000 has been agreed to by the Japanese government as a reparation for the sinking of the Chinese warship, and compensation to those dependent upon the Europeans lost with her.

Both China and Japan are at present keenly alert for articles contraband of war and to this the delay in the arrival of the Sikh is attributable. The government has declined to consider rice as a contraband of war, but both belligerents claim it to be such, and use every endeavor to intercept rice carrying vessels. The Sikh was delayed at Shanghai by a Chinese gun boat which made an attempt to gain possession of the port, and of her cargo. The British consul objected and the merchantman was allowed to proceed.

It is almost impossible to get reliable war news anywhere in the East, even at Shanghai. This trip the steamer passed very close to the Foo Choo forts and saw the Chinese gun-son drawn up in line. They were all attired in flowing sack gowns of gaudy color and had high, three-cornered silk hats, and presented a curious spectacle. These forts are in charge of an Englishman, the son of a naval officer, and are said to be exceedingly strong. One of their eighty ton guns burst some time ago, killing several men. It is generally understood that this occurred through ignorance in handling it. China is now hurrying an army of thousands of troops through Northern China to Korea, but as they are subsisting on the products of the country through which they are passing and most of it is mountainous, it is hard to say with what success it will meet.

Most of the men enlisted and drafted into the Chinese army are coolies of the low order. The Chinese have been offering great inducements to Europeans and Americans to enter their service and have secured many. On the other hand the Japanese will have no outsiders in any branch of the service.

MORA, MINN., THREATENED

That Village Believed to Have Been Burned by Forest Fires.

DULUTH, Minn., Sept. 10.—At 3 o'clock yesterday afternoon the operator at Mora, on the Eastern Minnesota, was chatting with the operator at Duluth about the threatening of the fire. Instantly he said: "It's getting awful hot down here. The people have nearly all taken refuge in Snake river, and I'll have to follow unless there's a let-up."

Just a few minutes passed, and he said: "I fly. Thirty."

Tests of the wires a few moments later proved they had gone up, and it has been impossible to raise Mora since. The people took warning in time, and all are believed to be safe.

Ends in a Murder.

PARIS, Mo., Sept. 10.—A difficulty occurred between A. T. Howser and Ed Murr two miles south of Paris yesterday afternoon when Murr shot Howser and escaped. Howser will die.

BRIEFS BY WIRE.

It is alleged that China has purchased the entire naval fleet of Chili. Japan asserts that she is having no trouble floating her war loan of 30,000,000 yen.

Secretary Carlisle is discharging all the Republicans in the treasury department.

Turner opera house and adjacent buildings at Monroe City, Mo., were burned.

The police of Chicago removed objectionable advertisements from the billboards.

The east-bound Toledo passenger train was wrecked at Stanton, Ill. Two men were killed.

The cruiser Columbia has been ordered to convey American refugees from Port Limon to Bluefields, whence they fled.

Governor Moseley of the Chickasaw nation has appointed his cabinet. Several representatives were unelected because of fraud at the polls.

Cheap Rates East.

SANTA FE ROUTE. Chicago, Pittsburgh, Columbus, Cleveland, Indianapolis, and other eastern points, \$21.50 for the round trip, by the Santa Fe route.

D. Holmes, druggist, 731 Kansas ave.

HAVE TAKEN PITTSBURG.

The Grand Army in Possession of the Pennsylvania City.

PITTSBURG, Pa., Sept. 10.—"Comrades" and friends have been flocking into Pittsburgh, taking complete possession of the city. It is estimated that on the night before the opening of the twenty-eighth national encampment at least 100,000 visitors were here and to-day's arrivals will swell the number. A copious shower fell yesterday afternoon, clearing the atmosphere and tempering the heat so that sight seeing has been made pleasant. This had the effect of crowding the streets to an extent never before witnessed in Pittsburgh, which is rather a staid old town and noted for its quietude on the Sabbath. The saloons were closed, of course, but other business was transacted in a way which made the average citizen imagine that he was away from home visiting some other place not so stiff in the observance of the blue laws.

Among the noted arrivals were two men from Honolulu. They represent the G. A. R. in Hawaii and were determined to be present at the last encampment which they will likely ever enjoy.

The Women's Relief corps headquarters in a place of activity all day. No business was transacted, but as each member of the corps would arrive she was taken to headquarters and made to feel at home.

About the only matter that would be called disagreeable in connection with the encampment so far is the feeling of bitterness felt by the G. A. R. people at the action of the railroads in refusing a one-cent a mile rate for near-by towns, thereby keeping down the number of visitors at least 20,000. It has cropped out that the subject will be introduced in the convention and a resolution offered, backed by the delegates from Pennsylvania and Ohio, to the effect that hereafter no encampments will be held, but that the delegates, 1,200 in number, meet and transact necessary business at the expense of their respective posts without asking favors from the railroads. The veterans do not understand why, in the past, Columbus and Milwaukee were granted the 1-cent rate. Pittsburgh denied it. From what can be learned the Cleveland people are leading the revolt. It is not known how the resolution will be received.

The first fatality among the veterans to be reported is the sudden death of Comrade Louis Treasurer of McClure, Snyder county, Pa. He was a member of post 335. On arrival at the post headquarters Treasurer was completely exhausted and died of weak heart within fifteen minutes after reaching the building.

THEY MUST ACQIESCE.

Satelli Declines to Interfere in the Bishop Bonacom Trouble.

OMAHA, Neb., Sept. 10.—A week ago the priests in the Nebraska diocese in rebellion against the authority of Bishop Bonacom sent a committee to Archbishop Satelli to secure relief from what they term the prelate's tyranny. This includes three-quarters of the priests of the diocese. The mission was a failure, the ablegate refusing to interfere. The case in which the priests hoped to secure papal interference was the arbitrary removal of Father English of Hastings, a very popular man, to an obscure location. They claim this is the result of the opposition of English to the bishop in the recent trial.

The priests of the Lincoln diocese, particularly those who attached their photographs to the charges against Bishop Bonacom, are given what might be called an eye-opener by the failure of the Hastings mission to Washington. It was hoped the ablegate would interpose his authority and protect them from the wrath of the bishop, but as he professes to have no power in the premises, they will be obliged to take whatever medicine the bishop may prescribe and compound.

OPPOSED TO STRIKES.

Grand Master Workman Sovereign Talks on the Subject.

BUFFALO, N. Y., Sept. 10.—The executive board of the Knights of Labor will hold its regular session in this city to-day. Grand Master Workman Sovereign and Grand Secretary McGuire are here. Speaking of the recent great strike Mr. Sovereign declared that he was decidedly opposed to strikes.

"I can't imagine," said he, "that an emergency might arise that would demand a strike, but generally speaking only temporary victories are accomplished in that way. Strikes widen the breach between labor and its employers. All strikes are illegal and strikers are criminals. Workmen must look for relief to some other source."

When the committee gets through here it will adjourn to New Orleans.

Menonites Going to Colorado.

DENVER, Col., Sept. 10.—A committee of six Russian Menonites from Hays City, Kan., left on the Denver and Rio Grande railroad last evening for the San Luis valley. They represent about 300 families who propose to settle in Colorado, if desirable locations can be found.

Drowned in the Neosho.

BURLINGTON, Kan., Sept. 10.—Last night about 7 o'clock while attempting to cross the Neosho river at this point, Frank Martell of Madison, Kan., was drowned, and both of his horses. Martell owned stock ranches near Madison and Williamsburg.

National Keeley League Convention.

COLORADO SPRINGS, Col., Sept. 10.—The national convention of the Keeley leagues of the United States opened at the Coliseum in this city this morning. An attendance of 3,019 delegates from all parts of the United States is expected.

I want to give away 4,000 bunches of chewing gum to the school children, so this week every purchaser of 10c worth of school supplies gets free a 5-cent package of chewing gum.

THOMPSON'S "ENTERPRISE"

Subscribe for the Daily State Journal

THE JULIUS TOWER.

Contains the Millions of Germany's War Treasures.

The Julius tower, not far from Berlin, contains the war treasure of 120,000,000 marks yielding no interest. This large sum, consisting of crowns and double crowns, is from time to time, without long notice, counted by two members of the imperial debt committee. Entrance to the well guarded tower can only be gained if these two members put their complicated keys in the keyhole simultaneously. Needless to say that there is always a sentry at the entrance door.

A strict record is kept of the hour of opening and closing the tower. On opening it one enters at once into the rotunda, where the shining 120,000,000 marks are stored. This vast sum is divided into twelve equal parts, each subdivided into ten others of the value of 1,000,000 each. This 1,000,000 is again distributed in ten bags of 10,000 marks each, two-thirds of which sum is in iron-mark pieces. When a revision is ordered the number of the division and subdivisions to be counted is chosen at haphazard.

For the counting a squad of soldiers is ordered. As soon as some of the 100,000 mark bags are counted and found correct the war treasure is considered to be properly revised. The other large funds—those of the invalids' relief and the fortification building fund—are also overhauled by carefully comparing the coupon sheets, numbers, series, etc., with the original entries. Until the beginning of the new reichstag building, this fund was also kept in the Julius tower. As soon as the work of counting and comparing is finished the auditor's report is drawn up and signed by both functionaries—the two keys are again simultaneously inserted in the locks—and the revision of the war treasure is concluded. The "counters" are drawn up in line and marched back to the barracks, the "committee" drive off in a cab and the "hoard" is left once more in that absolute quietude which every peace-loving Teuton hopes it may enjoy for many years to come.

FATE OF TWO SPARROWS.

They Were Gazing People on a Steamship When Something Happened.

Two impertinent sparrows met a curious and untimely death in the presence of an interested New York crowd a few days ago. One of the Cunard steamships was being warped in to her dock while crowds of people on the pier and the vessel were chaffing at the delay and slowness of the tedious process. A thick hawser fastened to a capstan near the bow was being used in the warping process and was stiff as a pole under the tremendous strain.

The sparrows who had been twittering and chirping about the place fluttered out to examine the hawser. Evidently it was a new perch stretched for their benefit where it would afford a good view of both boat and pier, they thought. They settled on it half way out. At first the slight vibration of the big rope caused them some uneasiness, but they soon got over it and fell to poking fun at the waiting people. They would glance perily first at the travelers; then at the expectant friends, and then they would turn to each other and chirp out impertinent, gaudy remarks and twitter with glee until they nearly fell off their perch.

In the very midst of their enjoyment something happened. There was a muffled report and the thick hawser parted like a thread just where the feathered jokers had been standing, causing the dockmen to run as one end came writhing toward them like a snake. It was like the burst of thunder sound in Mrs. Hemans' poem; the birds, oh, where were they? Two little fluffy bunches of feathers rode the crest of a ripple in the water and disappeared under the pier.

"Poor little things. It killed them," said a lady on the pier.

Then a new hawser took the place of the old, the big ship swung in, and everybody pushed forward to greet long-absent friends.

She Felt Safe Then.

It was during a recent small-pox scare in a certain town in the Midlands, in England. An old lady from the country thought she would like to take a cab, but she was rather anxious, having heard that many of the cabs had been used to carry small-pox patients to the hospitals. She asked the driver whether there was any risk of catching the disease. "Not in the least, mum," answered the caddy, "I've had one of my back wheels vaccinated, mum." Thus reassured, the old lady stepped in and proceeded on her way.

Will Wheat Turn to Cheat?

Some who read this headline will say "yes" and swear to it, while others, equally as well acquainted with the mysterious in agricultural lore, will declare that "like produces like" and that one species of grain never sprung from another. There is but one instance on record in all the annals of agriculture where a spike of cheat has been found in a field of wheat. This curiosity is, or was quite recently at least, preserved in the agricultural museum in Springfield, Ill.

Jack as Good as His Master.

A prominent Milwaukee lawyer who has a few peculiarities of his own, employs as his stenographer a young lawyer who has even more peculiarities, and some great stories are told about their doings. It is said that when the employer takes his stenographer into his private office to dictate a brief they frequently fall into hot disputes as to the law, and occasionally the young lawyer declines to take down such nonsense as he deems his employer's utterances to be.
